

Partner Newsletter – Final Edition

Welcome to the final edition of the Speed You UP Young Entrepreneur Newsletter for our External Stakeholders. This newsletter covers the period from November 2022 to February 2023.

The newsletter is published every 6 months and presents a range of updates from the Project's Partners based in Belgium, France, the Netherlands and the UK.

Each piece of news is written in English as well as the native language of our Partners.

About SPEED You UP

The aim of the Speed You UP programme is to deliver training about self-employment to young, unemployed people aged 16 to 25 in order to enhance their employability and entrepreneurial skills. The Partners together with coaches and teachers deliver training sessions about self-employment. Together with external stakeholders, they create entrepreneurial hubs both in secondary schools and in local communities helping young people in their journey to self-employment.

Everyone involved works extremely hard to guide and support Speed You Up learners. All the Partner colleagues are very committed and passionate about the programme.

We'd like to take this opportunity to thank our Partners for their contributions and for their continued involvement and commitment when working on the project.

We hope you will enjoy the content of the newsletter with these exciting and inspiring updates.

United Kingdom
